SALES MEMORANDUM

Confidential · July 2026 · sukoda.ee

This is not an idea or a project. For sale is a **fully built premium home care business**: brand, technology, service standard, suppliers and a completed first pilot.

The buyer can start selling from day one. The web platform with Stripe payments, client portal and admin console is fully working, and the service has been proven with a pilot client over six months and 12 visits. Handover includes one month of onboarding support and adjustments from the seller.

sukoda.ee homepage. The site is fully bilingual (Estonian and English).

POSITIONING

A boutique hotel feeling at home

SUKODA is not a cleaning company. It is a premium home care ritual: always the same person who knows the home, fresh flowers, seasonal fruit and a handwritten welcome card at every visit. The positioning is deliberately in the highest price class, where very few companies in Estonia operate with a comparable concept.

The brand is bilingual (ET/EN), the first target market is Tallinn's premium residential areas, and the concept can be extended to other cities and countries.

Tested, not just designed

The SUKODA service has been delivered to a pilot client for six months and 12 visits, and the process has been tested from start to finish. Every visit includes fresh flowers from Fleur Royale, with whom a partnership agreement is in place and who prepares the flowers for each visit. Added to this are exclusive chocolate and, as a finishing touch, the home is scented with an Italian artisan perfume, carefully selected and tested from several candidates.

The service is carried by a highly experienced lead housekeeper whose touch defines SUKODA's level of detail: towels are folded into fans and boutique hotel finishing techniques are used throughout. She has agreed to continue as a trainer and quality controller for new staff. The service standard is documented in writing and does not depend on one person. The buyer does not need to invent it, it exists and can be handed over.

From a pilot visit: flowers, seasonal fruit, exclusive chocolate and a welcome card on the client's table.

BUSINESS MODEL

Subscriptions and automatic billing

1× PER MONTH	2× PER MONTH	4× PER MONTH
€199	€279	€499
per month	per month	per month

Prices are set and published on the site, but they can be changed freely: during the onboarding month the seller reconfigures prices, packages and copy exactly to the buyer's business logic. Gift cards bring additional revenue and work especially well as corporate gifts and as a closing gift in real estate transactions. The subscription model gives predictable cash flow from the first client. For growth, a platform model has also been worked out, where contracted partners deliver the service and SUKODA keeps a commission, which allows expansion without a large payroll.

A working platform, not just a website

Bilingual website

In Estonian and English: homepage, gifts page, partnership page and brand story.

Stripe payments

Automatic monthly billing as subscriptions, gift card purchases and VAT accounting.

Admin console

Management of clients, orders and visits on the provider side.

Order flow

Package selection by number of rooms, address validation, contact details and confirmation.

Client portal

Visit management, home profile, preferences and special requests visible to the housekeeper.

Gift cards

Digital sales online plus physical cards and envelopes for giving in person.

S U K O D A

Physical materials are printed and in stock

Black envelopes with gold foil, gift cards and welcome cards. Print files and the print shop's contact with unit prices are included, so reordering takes one email.

The cards read "Tulid koju. Kõik on korras": you are home, everything is taken care of.

What the price includes

- ◆ The sukoda.ee domain and the entire web platform codebase
- ◆ Brand, logo, design files, print files and all copy in two languages
- ◆ Handover of the Stripe payment account setup, with documentation
- ◆ Admin console and client portal with full operational handover
- ◆ Stock of physical materials: envelopes, gift cards, welcome cards
- ◆ Partnership agreements and suppliers: flower partner, exclusive chocolate and home fragrance suppliers with contacts and terms
- ◆ Service standard: care rituals, finishing techniques and quality requirements in written form
- ◆ The experienced lead housekeeper's readiness to continue as trainer and quality controller for new staff, under a separate agreement
- ◆ Business plan and launch plan: platform model with a partner network, B2B gift card sales to developers and brokers, and a referral program with a calculated growth path
- ◆ One month of onboarding support from the seller after handover: pricing and package changes, copy adjustments and minor development at the buyer's request

BUYER PROFILE

Who gains the most value

Cleaning company

The team and processes already exist. SUKODA adds a higher margin premium line immediately, without a year of brand and development work.

Property manager or developer

Concierge level service for your residents. Raises the value of the property and creates recurring revenue from an existing client base.

First-time founder

A ready business from day one. Brand, technology and materials are done, only service delivery and sales remain.

DAY ONE

What the buyer gets immediately

◆ Domain transferred

◆ Stripe live

◆ Website live

◆ Brand complete

◆ Print materials in stock

◆ Suppliers under agreement

◆ Trainer available

Born as a gift

SUKODA began as a Christmas gift. The seller was looking for an exclusive home care service as a gift for his wife, who appreciates Hermès, Chanel and the best boutique hotels, and discovered that home care at the highest standard simply did not exist in Estonia. So he built it himself: the brand, the platform and the service standard described in this memorandum. The gift worked and the pilot client is still very happy.

The groundwork is done and the concept is proven. The seller's own focus is on building other technology companies, so SUKODA's further growth deserves an owner whose field this truly is.

PRICE AND PROCESS

What building the same would cost

Brand, logo, design system and print designs	€12,000 to €16,000
Web platform, Stripe payments, portal and admin console	€28,000 to €38,000
Copy in two languages, photos, printing	€5,000 to €6,000
Building the service standard: supplier selection, fragrance and flower partner agreements, testing and tuning	3 to 4 months of work
Ordering and building the same from scratch	€45,000 to €60,000 and 6 to 9 months

The buyer does not just save money. They save at least half a year of building, dozens of decisions and the whole trial and error phase.

PRICE FOR A FINISHED AND WORKING WHOLE

€39,000

The price includes all the assets listed above, the stock of physical materials and one month of onboarding support with adjustments. Handover takes two weeks and the business is ready to launch from day one. Further technical documentation, financial details and a demo environment are opened after a non-disclosure agreement is signed and the buyer's suitability is confirmed. On request, a walkthrough demo of the web platform and admin console can be arranged.
